## Rose's Commitment to Vietnam

With 28 years of business under our belt, Rose is always looking for ways to improve, grow, and stay relevant. One of our goals in 2023 is to expand our reach in the Vietnamese market; not only with business partners, but also within our own organization. Our team has a representative in Vietnam helping build bridges and connect the USA to Vietnam on a more personal level. Rose also has employees who are fluent in Vietnamese to help ease any language barriers and smooth over any complications that may arise. Our team understands the importance of providing quality service and is excited to grow organically with local Vietnamese partners who share in our values.
